

# NEVER-KNOT™

## Extension Cords

**Indoor/Outdoor Rated**  
Tangle/Knot Resistant Cords  
Industrial Strength

Power On Indicators on both ends assures that you are connected to a live power source.

Only Never-Knot provides a Patented Core Technology that prevents the cord from twisting and knotting as it's coiled and uncoiled. Electronics last longer!

## Only Never-Knot's Core Technology Prevents Frustrating Tangles and Knots.

Electri-Cord is now offering Never-Knot™, the World's first indoor/outdoor rated professional grade extension cord that resists tangles and knots. Only Never-Knot provides a Patented Core Technology that prevents the cord from twisting and knotting as it's coiled and uncoiled throughout its lifetime. As a result, professionals spend more time on the job and less time setting up. Reduced twisting means the electrical components have a longer lifespan.

Never-Knot is a standard product in 25', 50' and 100' lengths. All lengths come in 14 Gauge stranded wire, the 50' and 100' lengths also come in 12 gauge. Each cord is constructed with a molded solid brass three-prong connector.

The tangle-free cord is constructed using a yellow PVC (SJTW) jacket with a recognizable blue stripe. It is resistant to abrasion, water and harsh weather conditions. Never-Knot is UL® Listed and meets OSHA requirements.

# The world's first industrial grade tangle and knot resistant cord comes equipped with power indicators on both ends.

## Product Construction:

**Wire:** 14 and 12 AWG fully annealed stranded bare copper  
**Jacket:** SJTW, PVC yellow with Never-Knot's signature blue stripe  
**Insulation:** Premium grade  
**Core:** Patented twist resistant fiberglass core  
**Plug:** Clear PVC

## Applications:

Portable Tools  
 Compressors  
 Motors  
 Maintenance Equipment  
 Industrial Cleaning Machines

## Features:

**Connector:** Solid brass nickel-plated connector  
**Power Indication:** Both ends  
**Heavy Duty Strain Relief**  
**Patented Core Technology**  
**Number of Conductor: 14AWG:** 41/30, **12AWG:** 65/30  
**Outside Diameter: 14AWG:** 0.50", **12AWG:** 0.55"  
**Temperature Rating:** -40° to 140° F  
**Resists:** Tangling & Knotting

## Approvals/Warranty:

UL Listed  
 CSA  
 Meets OSHA requirements  
 Limited 5-year Warranty
